

The Practical Basics of Vibration Shaker Testing

Tuesday October 17 2017

Leicester, Leicestershire LE2 3UF (SAT NAV LE2 3TQ)

Introduced by NDO Consultants Ltd. in association with Data Physics UK Ltd

This seminar is aimed at:

- Engineers who are new to the field of Vibration Shaker Testing
- Engineers who are associated with the testing world whilst not actually involved with testing
- Test engineers who have experience without a full understanding of what they are doing
- Design Engineers, Managers, Product specifiers

The primary aim of this seminar is to provide valuable practical information to engineers and managers, to improve their understanding and application of Vibration Shaker testing in project and product programmes.

This Shaker Testing seminar will cover the following areas:

- Introduction and overview of Vibration Shaker testing and its equipment, methods and purpose.
- Shaker construction details, limits and uses
- Common problems and errors when setting up shaker testing, best practice advice,
- Fixture Design
- Sine, Random and Classical Shock control
- Practical demonstration of best practice and effects of bad set up, Sine, Random and Classical Shock testing

We have gathered together subject specialists and engineers of many years test experience, from a range of testing backgrounds.

Course fees include lunch, refreshments and full course notes the seminar cost will be £150 per delegate. The places are limited so please book early by completing and sending the attached booking form along with your order number to info@ndoconsultants.com

Seminar Agenda

9.00 – 9.30	Arrival/Registration
9.30 - 10.30	Basics of Vibration Signal Processing – <i>Steve Coe – DataPhysics UK</i>
10.30 – 11.30	Shaker testing basics – <i>Geoff Murphy – Vibration Test Consultant</i>
11.30 – 11.45	Refreshments
11.45 – 12.30	Shaker testing basics – <i>Geoff Murphy – Vibration Test Consultant</i>
12.30 – 13.00	The truth about Accelerometers – <i>Neill Ovenden – DJB Instruments UK Ltd</i>
13.00 – 13.45	Lunch
13.45 – 14.15	Standard & Specifications – <i>Brian Tyler - AWE</i>
14.15 – 15.00	Fixture Design – <i>Steve Coe – Data Physics UK</i>
15.00 – 15.15	Refreshments
15.15 – 16.45	Practical set up of Shaker tests – Sine, Rand, Shock – <i>Geoff Murphy – Vibration Test Consultant</i>
